

*Quarriers, contractors and transport operators
now have a full service heavy machinery
workshop right on their doorstep.*

Specialist workshop

We're a
big part
of your business.

MIMICO is now operating a specialist heavy machinery and truck workshop in Matamata.

Here's what the workshop provides:

- a full-time team of 12 mechanics and transmission specialists
- four bays and 1000m2 of workshop designed for efficient workflows, with a 10 tonne gantry crane
- a specialist transmission workshop with 2 tonne crane
- New Zealand's only electronic testing facility for ZF transmissions
- a parts division and 600m2 parts warehouse located next to the workshop
- modern truck wash facilities
- mobile service teams.

This workshop has been custom-designed to service heavy machinery from around New Zealand, so the set-up and equipment is the best available.

MIMICO's parts division is located right next door. It holds warehouse stocks of common parts, and sources parts for all makes and models from around the world - ensuring you get parts quickly and at the right price.

The Matamata workshop is just 20-60 minutes from Tauranga, Hamilton, Rotorua and points in between. Let's face it, that's how long it takes to drive through Hamilton on an average to busy day.

So give MIMICO a call and find out what they can offer.

Freephone: **0800 806 464**
(within New Zealand)
Phone: **+64 7 888-6294**
Fax: **+64 7 888-4879**
